

OLYMPIAN™

Natural Gas Generator Sets

MUNICIPALITY

25-300 kW

Your community trusts you. And you can trust me.

Picture all the activity on a busy evening in your community. Cars heading home from work, kids heading to after-school activities. Now imagine that you just lost power. Suddenly, you can't see a thing – and the rest of your community can't either. Picture the chaos and the many serious hazards that instantly occur. And the total loss of control – from the municipal buildings that cannot function to the emergency personnel unable to get to those in need.

A POWER OUTAGE CAN BRING YOUR COMMUNITY TO ITS KNEES.

- The police, fire department, emergency teams, communication workers and other lifesaving personnel cannot get to the scene of an accident quickly and safely
- There is the potential risk of loss or damage to property or human life
- All government buildings, water towers, school facilities and community centers grind to a halt

Dependable backup power from the Olympian™ natural gas generator set is the affordable, easy choice for backup power and can help prevent the debilitating consequences of sudden power loss.

KEEP YOUR COMMUNITY UP AND RUNNING.

With the backup power of an Olympian™ gas generator set, you ensure that your community assets are always functioning properly, protect your valuable lifesaving services and provide for the ongoing safety of your citizens.

Olympian natural gas generator sets offer many advantages, including:

- **CONVENIENCE** – Just tap into the gas fuel line and you're ready to go
- **PERFORMANCE** – A reliable energy solution that delivers clean, economical power
- **APPEARANCE** – A clean, compact look with weather-protective and sound-attenuated enclosures
- **SELECTION** – Choose from a wide range of configurations rated from 25 to 300 kW (optional equipment also available)
- **SERVICE** – Each ready-to-run package comes with the comprehensive service and support of your Cat® Dealer

THE POWER OF CAT® DEALER SUPPORT

The reliable power that Olympian generator sets produce is matched by the power that backs them. More than 200 Cat Dealer locations across North America are equipped with everything you need, from installing and configuring your generator set to maintaining peak performance for the life of the product. System selection assistance, equipment training, parts, service expertise and maintenance programs are available whenever and wherever you need them.
